c) Language Improvement Score Error Front End: (same calculation)

Suggestion showing language improvement will increase by 7 points, whereas in this case improving CLB-9 in Listening will increase the total score by 44 points.

Another Test:

Username: October 31 Test - is correct both front and back end CRS 352 and IRCC calculation

All the same, just improving the listening band from 6.0- 7.0 to 8 increases the total score to 402

Problem: But we are suggesting it will add only 13 points
